Why ENERGY STAR Schools?

According to the United State Environmental Protection Agency and Department of Energy at www.energystar.gov

- Schools spend more on energy than any other expense except personnel.
- A high-performance school doesn't have to cost more to construct than a conventionally built school.
- High-performance schools can lower a school district's operating costs by up to 30%.
- Energy is one of the few expenses a school can reduce without sacrificing educational quality.
- Schools are a great place to teach the nation's children about energy and resource conservation.
