A2 Board Leadership Essentials: Your Public Image

Meets mandated ethics training requirement

A/S Level I required topic: Ethics

It's not just the decisions you make as school board members that impact your district, how you do your job also influences the success of your school system. The image you project depends largely on how the governing body – your school board – conducts its public business. Do you inspire your community? Or, do you provide regular examples of dysfunction? Being a public official is not easy; often thankless. But we can make the experience better by adopting productive habits and focusing on becoming a healthy team.

Evolving Elections

School board members are the largest group of elected officials in the state. For those on this year's ballot, Kentucky Secretary of State **Michael Adams** is part of the reason your constituents can vote in more ways than ever before. As the state's chief election officer, Secretary Adams will preside over an election like no other in history with early voting, expanded absentee voting, fewer polling locations and an expected record turnout in the middle of a pandemic. Hear from Adams, a Paducah native and public school graduate, about running this election, how his witty social media presence has attracted a wide bipartisan following in the midst of highly-polarized politics, and what changes he sees for future elections in Kentucky.
