

KSBA

KENTUCKY SCHOOL BOARDS
ASSOCIATION

Policy Audit Service

KSBA's policy consultants work directly with the staff of Kentucky's public school districts, recommending model policies that are **legally compliant and considered best practices**. Over time districts will experience administrative changes, such as election of new board members and/or central office turnover. These circumstances may result in a significant loss of institutional knowledge and less familiarity with policies and procedures on the books.

District-initiated changes made by previous administrations may need to be reviewed and revised. Policies that are seldom utilized and sit untouched may also merit review. The complexities of district policy cannot be understated, and KSBA stands ready to assist you in navigating the dense protocols to which schools are legally bound. **Misunderstanding of district policy may leave your school system and staff exposed.**

KSBA has introduced a new policy audit service. Your assigned policy consultant will conduct a **comparative study of your district policy manual** and KSBA's own model policy language. The audit will result in a list of recommendations. Upon request, districts may request drafts of policy language based on audit findings. This unique collaboration will help to ensure your district policies are current and clear.
