- Set participation requirements for extracurricular activities

FACILITIES

SCHOOL BOARD

- Manage district property, including renovation and construction
- Decide how school buildings are used after school hours by community groups

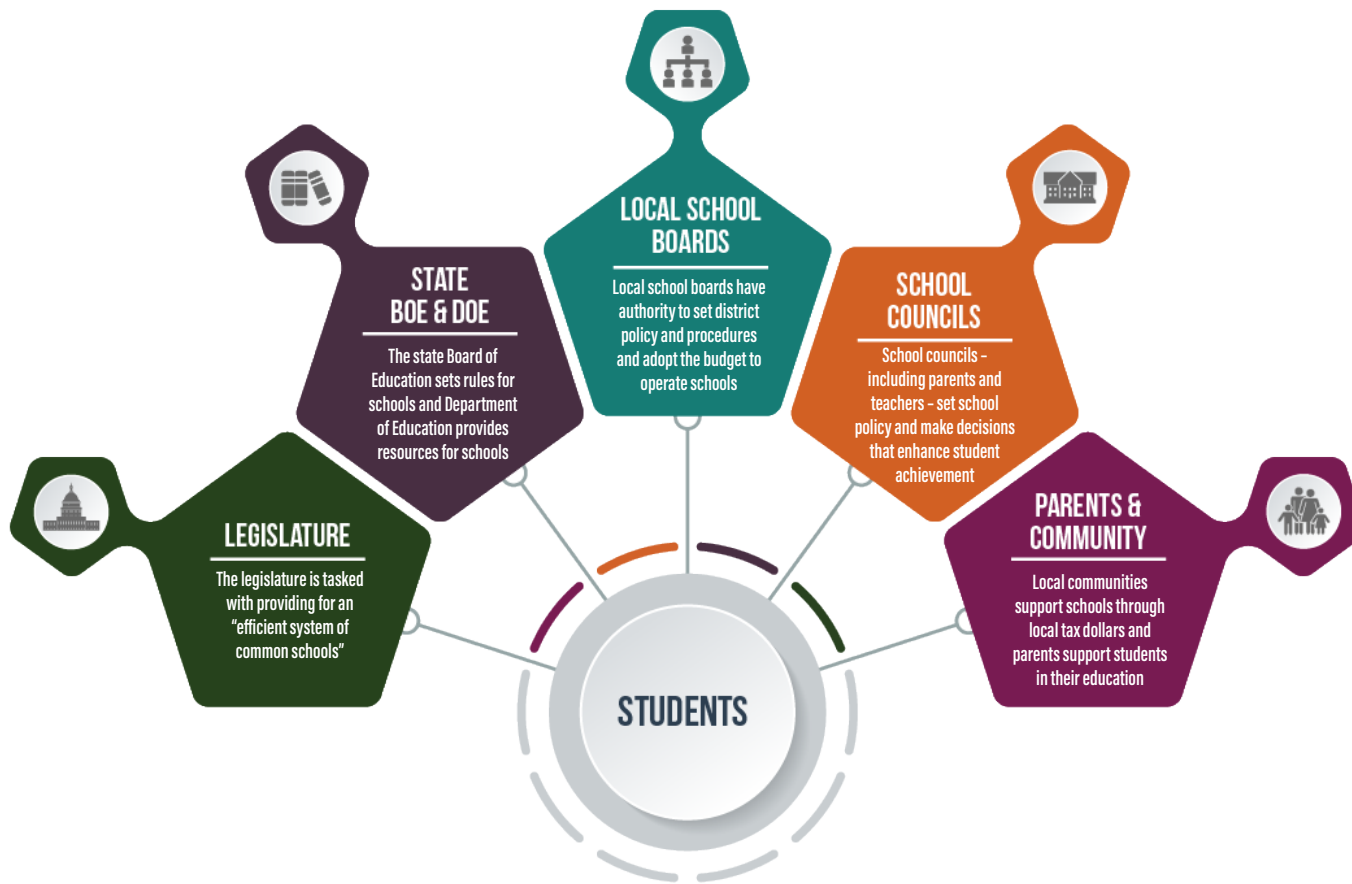

SCHOOL COUNCIL

- Adopt policies for use of the school building during the school day

SCHOOL BOARDS & SCHOOL COUNCILS MAJOR ROLES

Providing quality education to Kentucky children is a team effort involving many partners. This brochure explores key roles and responsibilities given to local school boards and local school councils.

The Kentucky Constitution grants responsibility to the **General Assembly** for the creation and funding of an efficient system of public education. Under that authority, the legislature has created the **Kentucky Board of Education**, **local school boards**, elected by the local community, and **site-based decision-making councils**. These local school councils are comprised of the principal, as chair, and three **teachers** elected by teachers and two **parents** elected by parents.

This is a general outline of school board and school council responsibilities and is not meant to be all-inclusive or to cover all situations boards and councils may encounter. For more detailed information, please see KSBA's School Board Leadership Guide at www.ksba.org/BeingBoardMember.aspx or go to www.kasc.net, the website of Kentucky Association of School Councils. Relevant state laws include KRS 158, KRS 160, and KRS 160.345, which may be accessed at www.lrc.ky.gov.
